

44
YEARS

100%
QUALITY

NSU Center of Excellence for Coral Reef Ecosystems Science Research Facility

Winner of 12 CASF Awards

As a way to reward and recognize local craftsmen, and the contractors who encourage and support them, the Construction Association of South Florida began the Craftsmanship Awards Program in 1958.

Quality Construction

Many companies speak of their quality work and guarantee quality craftsmanship on their projects. However, few companies can back up their claims of quality craftsmanship with a proven track record like we can.

Miller Construction has been participating in the Construction Association of South Florida's CASF Award Program since 1990. **The craftsmen working on our projects have received 390 CASF Craftsmanship Awards, an impressive 27% of all awards given to date.** This far exceeds the number won by any other design builder or general contractor working in the South Florida area.

In addition to the awards noted herein, we continually receive honors, awards, and recognition from other industry organizations, such as: Associated Builders & Contractors, National Association of Industrial & Office Properties, CON/STEEL, Community Appearance Awards, Tilt-Up Concrete Association, and Design-Build Institute of America

CASF Craftmanship Awards

MCC Project Winners

“We have been working with Miller Construction Company for over 20 years. It is a pleasure for us as subcontractors to work with a general contractor that cares so much about quality, customer satisfaction, superior craftsmanship and project management. Having been in the local construction trade for over 33 years I have dealt with many contractors. I consider Miller to be at the TOP of the list for Best General Contractor in South Florida.”

*~ Jack Pietro,
Phoenix Painting Company*
